

Guilherme Atanásio

Guilherme Atanásio is an abstract artist born in Lisbon in 1998.

As an electrical engineering student, he started painting in 2018 as a way of meditation and relaxation. The artist's learning comes from experimentation and the urge to express his ideas into the world.

In 2021, finishing his masters degree in engineering, he decided to dedicate himself to the artistic craft full time.

With a studio in Sintra and focusing mainly on abstract artworks, with some figurative and surrealistic experiments, the artist expresses his philosophy of gratitude and living in the present moment. With many paintings evoking mantras, brightful and vibrant colors, and a lot of movement.
